Dear Tony,

I want to thank you for the privilege of collaborating with The Caring Music Group (TCMG). We all met each other just about a year ago. I was a bit uncertain about what I had to “bring to the table” - BUT when Reverend Denise asks, I always believe it is an inspired ask. I am always so glad to say yes!

Working with your organization, I felt supported, mentored and sure of our new foundation, built on years of your group’s expertise, collegiality and wisdom.

Throughout our months together, there was no problem too big, no slip up uncorrectable, no time I could not reach someone and, most importantly, no judgement. Everyone with TCMG guided us with hands of silken steel. We all moved in the right direction, with you gently shepherding us and leading the way to the beautiful vision we shared.

It has been such an honor and blessing to have had this experience. You all so freely gave of your time and your talents.

I will cherish our journey together, always and hope to have you all somehow be in my life, as we move forward.

With love and great appreciation,
