

December 2023

To Whom It Concerns:

RocDog, Inc. is happy to write a letter of recommendation for The Caring Music Group. This is the second time that RocDog, Inc. has collaborated with them in raising funds for RocDog. The first time was a virtual concert in 2022, and the second time was a live Cabaret Show on November 4, 2023. The show tickets were sold out three weeks prior to the performance. The fund-raising event raised \$18,682.48.

The Caring Music Group partners with not-for-profit agencies to raise money, awareness and build community through unique, musical fundraising events, with 100% of revenue going to the beneficiary.

The Caring Music Group committee was awesome to work alongside with to present an outstanding event in the community. RocDog, Inc. highly recommends The Caring Music Group.

Subject: Caring Paws & People Concert Fundraiser

Tony,

Wanted to give you a bit of a recap on our Fundraising efforts this spring. By the numbers we had:

1. Corporate Pre-Event Commitment \$5,500.00
2. Night of the Event Donations \$4,457.00
3. May-June Push Donations \$1,250.00

Total: \$11,207.00

I have to say that the Caring Music Group did an amazing job for RocDog. This was our first ever Fundraising Event, We still have much to learn on our end; but your efforts were amazing I expect we had only about 90 Donors total for the Event. The average donation was probably about \$75.

The thing that I have come to learn is that I had a very limited amount of experience on my end of getting the word out to people and get them to the Concert and convert them to Donors. I now believe with the right Digital Marketing from my end with CRM software we should see numbers that are at least twice the above amounts doing this type of event again. This experience was a very large learning experience for us. You have left us in a much better place.

Again, thank you so much for all your time and effort on our behalf. The Event was in my mind a great success.

RocDog Handlers and Dogs Do Wonderful Things,

Paul Anthony
